

## BRIEF OVERVIEW / CAREER OBJECTIVE / SUMMARY

Motivated B.Tech Computer Science student with a strong interest in Cybersecurity and Web Development. Experienced in analyzing cybercrime cases and understanding digital threats through practical exposure. Skilled in front-end technologies and passionate about securing modern applications. Looking forward to applying technical and analytical skills in real-world cybersecurity and development roles.

## EDUCATION

## Prestige Institute of Engineering Management and Research

## AWARDED

## 1st Winner – Smart Indore Hackathon

Developed a *Mechanic on Call* platform connecting users with nearby mechanics in real-time. Enabled quick service requests with location-based matching, improving urban mobility solutions.

## Smart Innovation Award – Praytna 3.0 Hackathon

Built a real-time hospital resource sharing system for beds, oxygen, and emergency services. Improved coordination between hospitals through live data and centralized access.

## Smart Innovation Award – AI Manthan Hackathon

Created a crowdsourced civic issue reporting system for real-time problem tracking. Enabled authorities to monitor and resolve issues efficiently via a centralized dashboard.

**IoT & Hardware** Arduino, Raspberry Pi, ESP32, MQTT, Sensors

**Technologies** HTML5, CSS3, React.js, REST APIs

**Databases** MySQL, Firebase

**Soft Skills** Problem Solving, Teamwork, Quick Learner

## PROJECTS

## 1. Crowdsourced Civic Issue Reporting System with IoT Automation (Minor Project)

**Team Size:** 4 - **Duration:** - 5 Months

**Objective:** To develop a platform for citizens to report civic issues like potholes, garbage, and streetlight failures with IoT-based automation.

**Tools & Technologies used:**

- Frontend: React.js
- Backend: Django
- Database: Firebase
- Hardware: IoT Sensors

**Role & Responsibility:** Integrated IoT-based automation for real-time issue detection; enabled authorities to track, manage, and resolve issues through centralized dashboard.

## 2. Real-Time Hospital Resource Sharing System

**Team Size:** 4 , **Duration:** - 36 Hours

**Objective:** To develop a platform for real-time sharing of hospital resources like beds, oxygen, and ambulances to improve emergency response efficiency.

**Tools & Technologies used:**

- Frontend: React.js

## 3. Mechanic On Call

**Team Size:** 6, **Duration:** - 5 Hours

**Objective:** A service platform to connect users with nearby mechanics for on-demand vehicle assistance.

**Tools & Technologies used:**

- Frontend: React.js
- Backend: Django, REST API
- Integration: GPS Integration

## INTERNSHIP

### OFFICE OF ADDITIONAL DEPUTY COMMISSIONER OF POLICE CRIME BRANCH, INDORE

Duration: 25 Dec 2025 - 10 Jan 2026 (15 days) Mode: Offline

Role: Cyber Security Intern

- Analyzed real-world cybercrime cases, identifying types of fraud and digital attack patterns
- Worked with cybercrime reporting platforms to study and document online fraud cases
- Gained hands-on exposure to digital evidence handling and basic investigation techniques
- Researched common cyber threats, phishing attacks, and social engineering methods
- Improved analytical and problem-solving skills by evaluating case data and reporting findings
- Collaborated with team members to understand investigation workflows and cybercrime processes

## ACHIEVEMENTS

- Awarded 1st Winner at Smart Indore Hackathon
- Won Smart Innovation Award at Praytna 3.0 Hackathon
- Won Smart Innovation Award at AI Manthan Hackathon
- Participant at Hackwave Hackathon
- Participant at TechXLR Hackathon

## POSITION OF RESPONSIBILITY

- Social Media Coordinator – Urjotsav (College Fest)
- Social Media Coordinator – GFG (GeeksforGeeks) College Club

## CO - CURRICULAR & EXTRA- CURRICULAR ACTIVITIES

Co-curricular activities

- Attended Prompt Engineering Workshop (by GDGoC, PIEMR)
- Participated in vision craft Workshop during Urjotsav 2024
- Participated in Python Workshop during Urjotsav 2024
- Participated in Metaminds: AR, VR and XR Workshop/Event during Urjotsav 2025
- Completed multiple Infosys Springboard certification like python & Dsa

Extra-curricular activities

- Participated in Urjotsav Social Media Club
- Social Media Coordinator at GFG (GeeksforGeeks) College Club
